The Cairo Gazette has a telegraphic synoysis of the political news by this arrival, which says Lord Brougham explained his speech in the ionse of lords, on American affairs that he merely wished, as fellow Christians, to remonstrate with the Americans on the civil war: gloss it over as they might, the war threatened

tatal results to the character of the American the masterly Confederate movements in Virginia quest, to cease the offensive, and content them salves with acting on the defensive. In the house of lords, Brougham deplored

the continuance of the civil strile, and its conequences to Europe. He thought it impossible for Engla d to interfere, but expressed the opin on that the Americans wou'd see the suicide character of the struggle and come to amicable arrangements before they lost the respect and affections of Europe as a nation. In the house of commons, Mr Hopewood

asked if the government intended to take steps oward mediation. Lord Palmerston expressed deep sympathy with the suffering operatives, and sulegized their durance. He wished it was in the power of the government to take steps for their relief, but nterference in America could only aggravate matters. Both England and France would be delighted to take mediatory steps when an opas a duty and a pleasure.
